Proposed Development: Redevelopment of the former Birds Eye factory site into a residential development for 177 mixed dwellings.

Location of development: Ladysmith Road,(Former Birds Eye Site),Grimsby

Comments:

Development should contribute to public transport network / infrastructure.

All walkways should be looked over.

Contribution to cycle network – Walkway near Welholme Avenue, we suggest this could be a segregated cycle / walk way.

Also, the southern end of Ladysmith Road, we suggest the developers contribute to linking up the cycle network. Please contact Simon Moss (4428) / Jonathan Ford (4481) for further information.

Yours sincerely,

Transport Policy.
